## Printer ready specs

- Accepted file formats  
TIFF, JPG, PDF and EPS
- Please flatten all layered files and render/  
embed all fonts. If there are any links  
used, the art should be embedded.
- If possible, when saving your file, also  
save a copy in a pdf format, which is  
preferable for many types of printing  
applications.
- If the piece bleeds (image in running to  
the edge of the piece), 1/8" coverage  
must be included beyond the file size.
- Colour guidelines
- Files should be CMYK or RGB
- Photos are required in high resolution  
imaging.
- Colour correction will delay order.
- All RASTAR images must be supplied at  
300 dpi (1200 dpi for bitmaps).
- Please allow 2 days
- **NOT ONLINE**—delivery of imagery by  
memory stick **ONLY**
